Program statement: Create a page that will use an unordered list to mention your hobbies, favorite songs and movies. Another list will be an ordered list which will contain the name of the top three players (in descending order) from at least four countries who play either cricket/football or any other game that you like. Another list will contain a description list which will describe full forms of some acronyms from at least four different subjects. The page should contain a paragraph which describes you in the best way. The page should contain proper title and heading and should use proper elements wherever required.

<body>
    <h3>ABOUT MYSELF</h3>
    <p>
        Describing myself...? as easy as it sounds, it really isn't easy.
I'm a human being and as a human being we are evolving
        and changing every day. Our hobbies, our personalities, our
maturity level, everything changes and i can't guarantee how
        I will be tomorrow. As of now I believe I'm a good person. Someone
with a purpose. Someone with enough confidence. Someone
        who is empathetic with a lot of passion and drive. Someone with
their own set of opinions. Someone who is flexible. But someone
         with a fickle mind. Someone with a lot of insecurities. Someone
with severe anxiety disorder. I'm just like everyone else
         with their own sets of qualities and problems.
